EDITO

ANIMA is proud to be associated with two major events in the coming weeks, and to provide its support to a humanitarian initiative for the first time.

The Forum RESET, has become the major meeting of corporate social responsibility in France. This year it will showcase Mediterranean experiences and good practices, which is the opportunity for us to invite companies and partners involved in the EDILE initiative on inclusive investments. The following meeting is in Casablanca for the 4th edition of the Hub Africa Trade Fair. With the support of the EUROMED Invest project, we will partner for the organisation of the triangular business meetings between Africa - Mediterranean - Europe and contribute in the program of conferences and workshops.

On the occasion of our 10th anniversary, ANIMA also launches a sporting challenge for the association SOS Méditerranée: "Run for rescue in the Mediterranean". 14 employees and members of ANIMA will run the race "Run in Marseille" on Sunday 20 March 2016 with the aim to collect funds for SOS Méditerranée which rescues migrants who embark risking their lives to reach Europe. More than 3,800 dead in 2015 and the departures of migrants is intensifying every day, which make the Mediterranean the deadliest sea route of the History. SOS Méditerranée rescues to distressed craft, providing medical care with Médecins du Monde team on board and conducts migrants to safe harbors.

Support our runners: Donate to rescue in the Mediterranean!

Emmanuel Noutary, General Delegate
HUB Africa will be held on the 7, 8 April 2016 in Casablanca (Morocco). In this framework, EUROMED Invest will organise a business roadshow with more than 100 companies, investment promotion agencies and business organisations from Europe, Africa and the South Mediterranean.
